Good day,

FPT Group Pty Ltd, a Terminal operator in most major ports in South Africa would like t express the support to Osho Cement application because it will have a major impact in the development of the Coega Port as well as will promote job creation. FPT has signed an agreement with Osho to perform the Terminal handling and stevedoring of all the bulk imports in Coega and Cape Town Ports. We have to employ additional people to be able to support the new contract and they will represent a positive improvement for the area.

Osho could quickly increase locally the production of cement for national distribution and therefore reduce the importation. With lower Cargo Dues, that increase could happen a lot faster and therefore be beneficial to South Africa economy.

Best Regards,

Paulo Franco
Managing Director
